INITIAL APPLICATION REVIEW FOR 3-YEAR APPROVAL

(All must be "T" to qualify)

T/F

The research involves no more than minimal risk to participants

The research does not have direct or indirect federal funding including federal training and program project grants

The research is not subject to FDA oversight

The research does not involve prisoners or parolees

The research is not directed or overseen by a federal agency that has signed on to the Common Rule

The research is not seeking or obtaining a Certificate of Confidentiality

The research has no contractual obligations or restrictions that preclude eligibility in this policy (e.g., the non-federal sponsor or funder of the research requires an annual review)

The research is not funded by the California Institute for Regenerative Medicine

The UCSD IRB is not serving as the IRB of record for an institution that applies the federal regulatory standards to all research regardless of the source of funding and/or requires annual review
