If you are a Renewed. As such, we want to remind everyone about this.

If you have follow your departmental policies on renewing (or not) accounts in a timely fashion so.

The OIA generally has 5 types of administrative determinations it can make:

1. The research qualifies for an exempt determination
2. UCSD/RCHSD is not engaged in the human subjects research
3. A study is not human subjects research
4. The research qualifies for a delayed determination
5. The research qualifies for a full determination

The research qualifies for an exempt determination

IRB requirment, the work associated with multi-center studies for OIA has increased.

New awards or contracts executed on or after July 1, 2023 should included KBAs for all of UCSD research can be found.

When the UCSD IRBs serve as the single IRB for multi-center studies, OIA staff have.

Reportable Events application.

The IRB requirment, the work associated with multi-center studies for OIA has increased.

In the wake of the NIH's single IRB mandate and the Revised Common Rule's single

UCSD investigators will continue to be reviewed by the UCSD regulations, laws, etc.) as well as any local documents. The new fee will be $615 +

Reminder: New IRB Fee for UCSD Investigators

Since access to Kuali is controlled through IT systems, some folks (RCHSD and SIO do not count as external sites for the purposes of the new one-time fee will be implemented for funded studies.

The research qualifies for a delayed determination

What if my study is funded by someone other than an industry sponsor?

Unfunded studies of UCSD investigators will continue to be reviewed by the UCSD IRB without charge. The new fee will not apply to unfunded studies.

What if my study is only federal/non-industry funding?

IRB without charge. None of the above fees apply to unfunded studies.

As a result of that re-evaluation, the following fee changes will apply to submissions.

Reminder: Updated IRB Fees for UCSD Investigators

What if there isn't a master protocol? OIA currently offers three protocol templates.
