## OIA Website Update

The Office of IRB Administration (OIA) updated its website over the Memorial Day weekend. The website can still be found at [irb.ucsd.edu](http://irb.ucsd.edu); however, users will notice a significant new look and feel to the website. Please be sure to update any saved or bookmarked links to the new links contained within this email.

One of the biggest changes we've made is combining all of our guidance on to one webpage to make it easier for research staff to find. Our new [Guidance](#) page combines our SOPPs, guidance, and informational documents into one location.

The new website also contains many of the things you've come to look for from our office including a listing of upcoming [meeting dates](#), links to access [Kuali](#) and [eIRB services](#), links to [forms](#) to be used with Kuali, links to [recorded trainings](#) on use of Kuali, information about [single IRBs/Reliances](#) and [EBP/QI/QA studies](#), [HIPAA training](#), as well as OIA staff [contacts](#).

University of California San Diego, 9500 Gilman Drive, La Jolla, CA, 92093
